Download Protection Control Center FREE at: [www.earthlink.net/go/pcc](http://www.earthlink.net/go/pcc)

\* For Windows XP/2000 only.

## Add Attack Shield to your Protection Control Center

Today, dangerous viruses spread in hours—not days. Much faster than traditional security programs can be updated. So for constant peace of mind, you need Attack Shield. It's an extra layer of intelligent, proactive protection.

Attack Shield constantly monitors your PC and blocks anything that acts maliciously—without waiting for virus or spyware updates. So you can count on **zero-day protection** against threats that haven't even been created yet!

Try Attack Shield FREE for 30 days simply by activating it from the Spyware/Virus tab on your Protection Control Center. Then it's just \$2.95 a month or \$24 a year\*\*—about half the cost of the leading security options.

Learn more at: [www.earthlink.net/go/guide/attack](http://www.earthlink.net/go/guide/attack)

\*\* For Windows XP/2000 only. First 30 days free; standard monthly fee applies automatically thereafter. Annual rate is based on prepayment. Offer may change without notice.
