

Top 3 Tips for a BETTER ONLINE EXPERIENCE

1 Install TotalAccess® software

This FREE software is included in your Welcome Kit. It provides you with hassle-free connections, email, powerful protection tools—including our free Protection Control Center—and more.*

- ▶ Need software? Download or request a CD at: www.earthlink.net/totalaccess
- ▶ After installing TotalAccess, make sure you have the latest features by clicking on *Toolbox* in the Task Panel, then *Check for Updates*.

See pages 4–7 to learn more about TotalAccess.

*For minimum system requirements, see your TotalAccess CD or visit: www.earthlink.net/software/free/totalaccess/sysreq

2 Set up your own myEarthLink Start Page

Get local news, sports scores, weather, comparison shopping, movie showtimes, local search, and even preview your email—all from one page, every time you open your browser!

- ▶ Customize myEarthLink now at: www.earthlink.net/go/guide/myearthlink
- ▶ To learn more, click the *Tutorial* button at the top of this page.

See pages 10–11 for more information about myEarthLink.

3 Use EarthLink email

Email at EarthLink offers all the safety, simplicity, and reliability you need.

- ▶ **Web Mail**—access your email, Address Book, and Anonymous Email Address folders (see below) anywhere you have Internet access. Sign in at: webmail.earthlink.net
- ▶ **Virus and spam protection:** EarthLink email includes our advanced, automatic Virus Blocker and spamBlocker protection. To learn more, see page 14.
- ▶ **Eight regular email addresses:** You can have up to eight EarthLink "profiles," so your family can have individual email addresses, Address Books, and start pages. To activate an additional email address:
 1. Sign in to: myaccount.earthlink.net
 2. Click *Add a New Email Profile* and follow the instructions.
- ▶ **Ten FREE Anonymous Email Addresses**
 - Protect your real email address and reduce spam – it's easy!
 - Convenient for online shopping and Web site registrations – keep your real email address private.
 - Automatically organized into folders in your Web Mail Inbox.

▶ Easily delete and add new Anonymous Email Addresses:

1. Sign in to Web Mail.
2. Click on the *Anonymous Email* folder.
3. Select the *Manage Anonymous Email* tab.
4. Click on *Add more Anonymous Email Addresses*.

See page 8 for more about the benefits of EarthLink email. Or visit: www.earthlink.net/go/elnk_email
